OF TWENTE

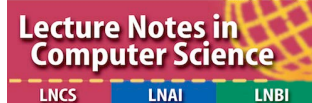

CALL FOR SPECIAL SESSION

16th International Conference on Intelligent Human Computer Interaction

University of Twente, Enschede, The Netherlands November
13-16, 2024

Springer

Join us at IHCI 2024, hosted by the University of Twente and the BMS Lab — an extraordinary international gathering of outstanding researchers, educators, and emerging professionals. This year's theme is 'meaningful human computer interaction'.

Topics of interest include

- User experience design and evaluation
- Usability and accessibility
- Cognitive and affective aspects of interaction
- User-centered design and innovation
- Social computing and collaborative interfaces
- HCIs for behavioural change
- (Generative) AI-supported HCI applications
- Augmented and virtual reality experiences
- Wearable computing and ubiquitous interactions
- Multimodal interfaces and natural language processing
- Human-robot interaction and social robotics
- Intelligent interfaces and interaction with new devices
- HCI in society and specific domains
- Human factors and cybersecurity

Submissions

All submitted papers will undergo a rigorous double-blind peer review process by an expert panel of reviewers. Submissions will be evaluated based on their originality, significance, technical quality, and clarity of presentation. The categories are:

- Full research papers, 10-12 pages.
- Short papers, 4-6 pages long.
- Case studies and applications paper, 4-6 pages long.
- Industry papers, 4-6 pages long.
- Session Proposal, 1 page abstract.
