

University of Twente Faces At Distances Database License Agreement.

Version May 24, 2013

Introduction

The University of Twente Faces At Distances (UTFAD) Database is made publically available in order to support and stimulate research efforts in the area of developing, testing and evaluating algorithms for face recognition performance. The University of Twente, Enschede, The Netherlands (henceforth, UT) owns copyright of and serves as the source for the UTFAD database, which is now distributed to any research group approved by the UTFAD principal investigator.

Release of the Database

To advance the state-of-the-art in face recognition, the UTFAD database obtained at UT will be made available to researchers or research units on a case-by-case basis. All requests for the UTFAD database must be submitted in writing to the UTFAD Principal Investigator by the researcher's institution on behalf of the individual researcher or research unit (henceforth, the "Researcher"). The UTFAD Principal Investigator's decision regarding access is final. To receive a copy of the UTFAD database, the authorized Researcher must sign this document and agree to observe the restrictions listed below. In addition to other possible remedies, failure to observe these restrictions may result in revocation of permission to use the data as well as denial of access to additional databases distributed by UT. The UTFAD database will be made available to Researcher via an Internet site, for which there will be no charge. The dataset is released under the Attribution-NonCommercial-NoDerivatives 4.0 International (CC BY-NC-ND 4.0) license (<https://creativecommons.org/licenses/by-nc-nd/4.0/>)

Consent

Researcher agrees to the following restrictions on the UTFAD database:

1. Redistribution: Without prior approval from the UT Principal Investigator, the UTFAD database, in whole or in part, will not be further distributed, published, copied, or disseminated in any way or form whatsoever, whether for profit or not. This does not prohibit the usage by others within the Researcher's university, organization, or company for research purposes.
2. Modification and Commercial Use: Without prior approval from UT, the UTFAD database, in whole or in part, may not be modified or used for commercial purposes. The license granted herein is specifically for the internal research purposes of Researcher, and Researcher shall not duplicate or use the disclosed UTFAD database, its contents, or any seal, logo, mark, or phrase associated with or owned by UT to manufacture, promote, or sell products or technologies (or portions thereof) either directly or indirectly for commercialization or any other direct for-profit purpose without the prior written permission of UT.
3. Requests for the database: All requests for the UTFAD database must be directed to the UT Principal Investigator in the form of a signed copy of this agreement. If the request is granted, the Researcher will receive access instructions.
4. Publication Requirements: Those seeking to include renderings of more than 10 images from the UTFAD database in reports, papers, and other documents to be published or released must first obtain approval in writing from the UT Principal Investigator. In no case should the UTFAD images be used in a way that could cause the original subject embarrassment or mental anguish.
5. Citation: All documents and papers that report on research that uses the UTFAD database must acknowledge the use of the database by including a citation of the paper:
Peng, Yuxi; Spreeuwens, Luuk; Veldhuis, Raymond: 'Low-resolution face alignment and recognition using mixed-resolution classifiers', IET Biometrics, 2017.
6. Publications to UT: A copy of all reports and papers that are for public or general release that use the UTFAD database must be forwarded immediately upon release or publication to the UT Principal Investigator.
7. Indemnification: Researcher agrees to indemnify, defend, and hold harmless the University of Twente and its Board of Managers, officers, employees and agents, individually and collectively, from any and all losses, expenses, damages, demands and/or claims based upon any such injury or damage (real or alleged) and shall pay all damages, claims, judgments or expenses resulting from Researcher's use of the UTFAD database.

Authorized Signatory for Researcher
