Why personalised at UT?

We can create coherence in meaningful learning trajectories and we are independent (contrary to commercial providers or just 'collecting ec's')

Self-governance in community

Why personalised at UT?

We can create coherence in meaningful learning trajectories and we are independent (contrary to commercial providers or just 'collecting ec's')

Self-governance in community

Personalisation can differ for different groups of learners (PreU, Ba, Ma, PhD, LLL,)

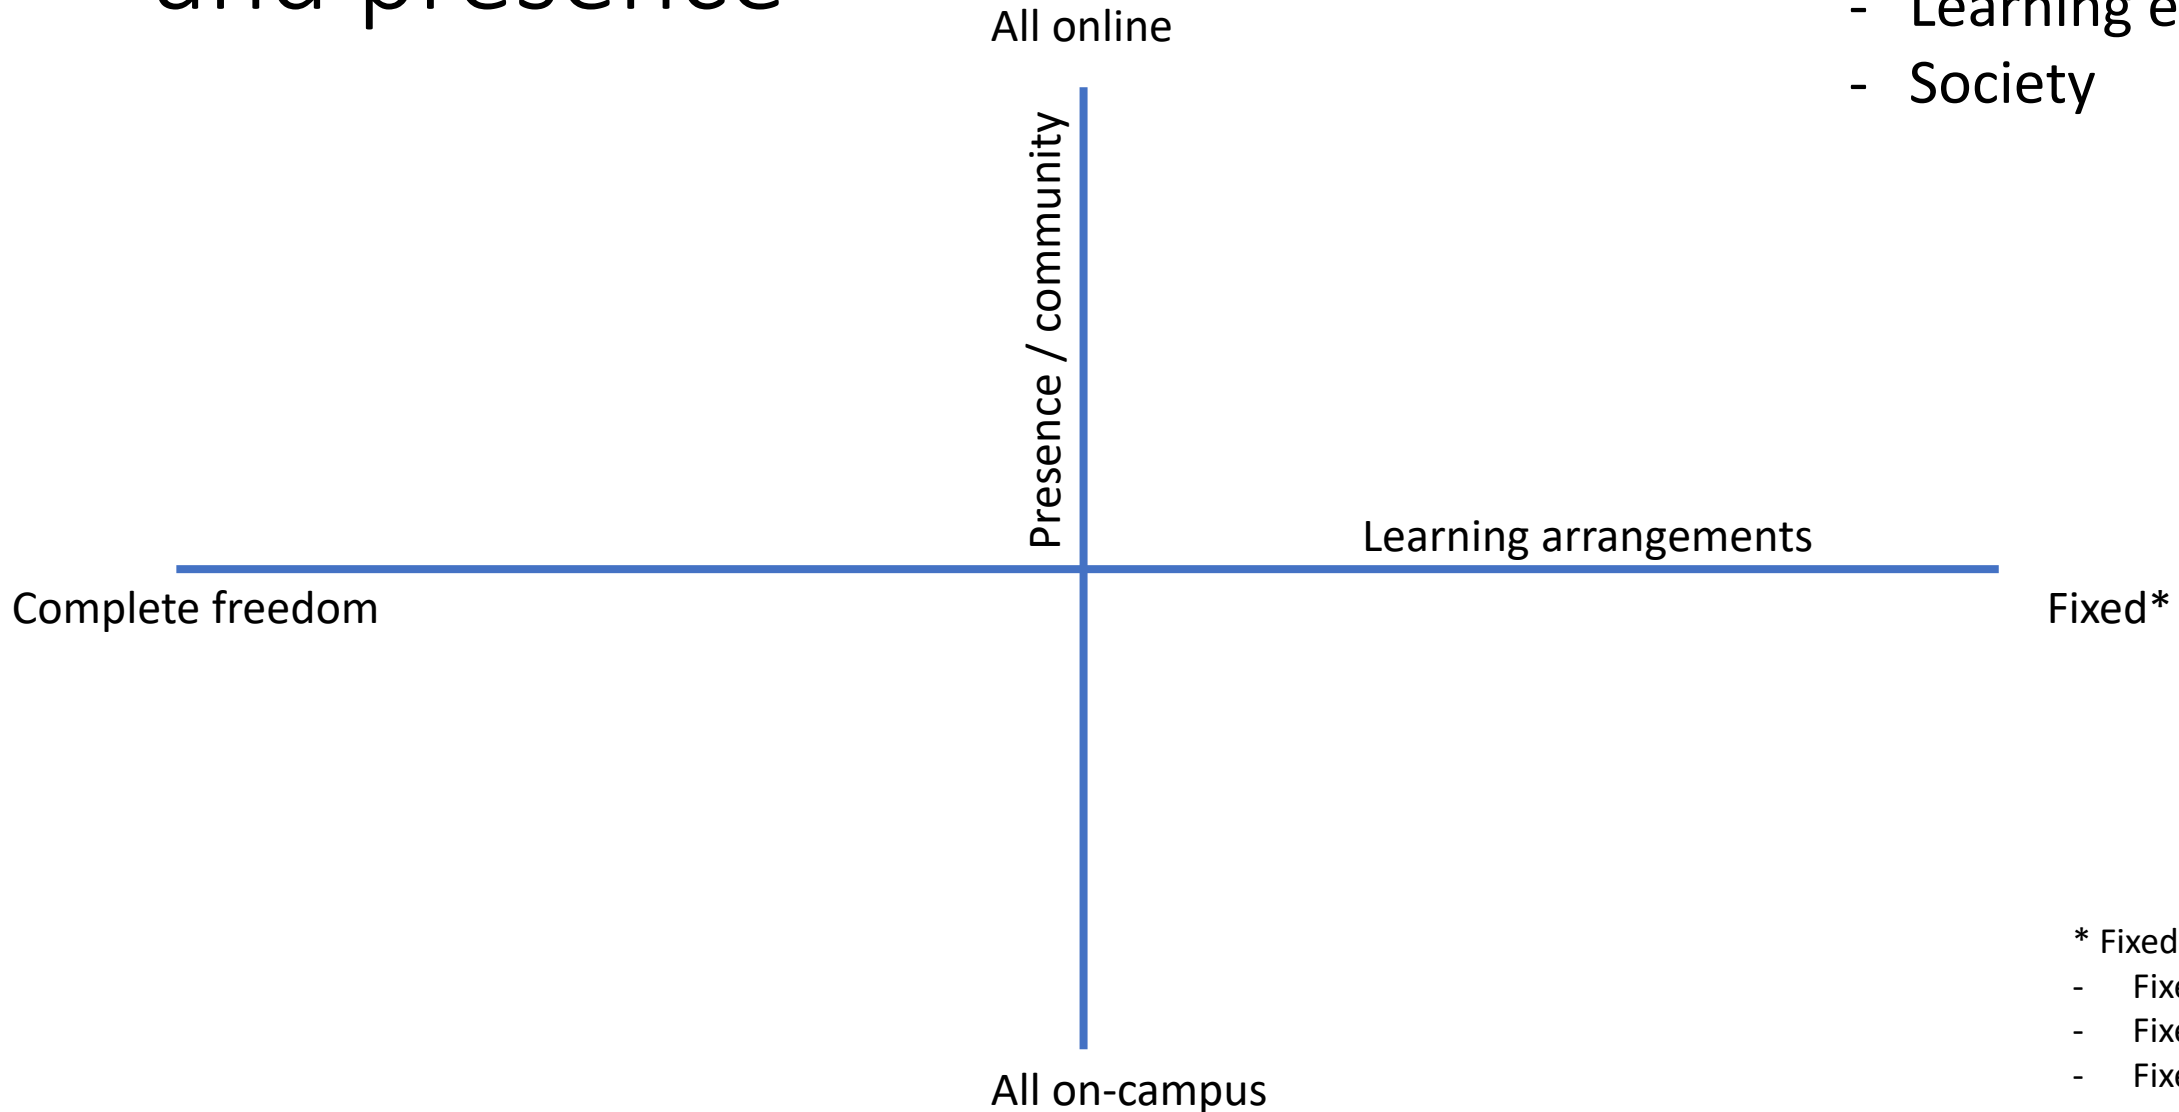

What does this mean for teaching, learning and working at UT?
