

I am **Ekaterina Svetlova**, relatively new to BMS, having joined in 2021, and hope to bring a fresh perspective to our community. My international experience, working in Germany, Switzerland, the UK, and the Netherlands, has provided me with an understanding and appreciation of diverse cultures.

Specializing in finance and accounting in both teaching and research, I also serve as the coordinator for the Financial Management track on the BA program, bringing valuable administrative experience. I strongly advocate for initiatives that promote diversity and transparency and am eager to contribute insights and support to our faculty's development.
